Professional Summary

After graduating with a degree in Electronics and Telecommunication, I decided to pursue my passion for programming. I enrolled in a coding bootcamp and learned full-stack web development. My favorite part of programming is the problem-solving aspect. I love the feeling of finally figuring out a solution to a problem. Though I am most proficient in building front-end applications using HTML, CSS, Javascript, and React. My core stack is React, JavaScript, Node.js, and MongoDB. I am also familiar with Java and AWS Cloud. I am always looking to learn new technologies. When I'm not coding, I enjoy playing video games, watching movies, and playing with my dog. I also enjoy learning new things.

Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2021	Bachelor of Technology	Padmabhooshan Vasantraodada Patil Institute Of Technology, Budhgaon, sangli.	72.0%
2017	Intermediate (Class XII)	Sangli Highschool and Junior College , Sangli	55.36%
